

ABOUT THE FOUNDATION

Since 2010, Edmonton Public Schools Foundation has been raising awareness and funds to level the playing field for children who come to the classroom at a disadvantage. In addition to funding six full-day Kindergartens for our youngest learners who need extra time in the classroom, we work with community partners to address other inequities.

What do we do?

Early Learning

We fund 6 full-day Kindergarten classrooms across Edmonton. This supports our youngest - and most socially vulnerable - learners by providing them with extra support and fundamental skills that will get them ready for all that lies ahead.

Chromebooks for Kids

By gifting education-grade Chromebooks to K-12 students who need them most, we reduce technology-based inequity amongst our most socially vulnerable students, and support their discovery and learning at home.

And More...

Research shows that students who come to the classroom from socially-complex environments need access to ongoing, wrap-around supports in order to experience success throughout their education, setting them up for a lifetime of success.
